

Below is the list of all the code classes that we will offer in 2022. I'm sure that you are aware that this year is renewal year in both Nebraska and Iowa. You will need to take all of your hours by the end of December in order to be able to renew your licenses.

Each class will count for six hours in the National Electrical Code.

Next week, we will be emailing you the actual registration form of the February thru May series of classes. *Please use that form to register for any class rather than responding to this email with a "sign me up" note.*
